Concrete Deck to be Poured at McOrmond Dr. and College Dr. Interchange

For immediate release: May 25, 2018

TU18-342

This weekend will mark another milestone in the construction of the interchange at McOrmond Drive and College Drive.

Weather permitting, crews will be pouring the concrete bridge deck between the hours of 6:00 p.m. on Sunday, May 27 and 10:00 a.m. on Monday, May 28. Overnight temperatures are ideal for concrete pours and traffic will be lighter, allowing for more efficient concrete delivery to the site. Area residents may notice some noise during the overnight work.

Roadwork at the interchange site will also pick up starting on Monday, May 28. Two northbound lanes on McOrmond Drive, between College Drive and Stensrud Road/Kerr Road, will be reduced to one between the hours of 6:00 a.m. and 3:00 p.m. daily for approximately two weeks. However, both northbound lanes will open in time for the afternoon rush hour each day.

The McOrmond Drive and College Drive interchange is scheduled to open in the fall of 2018. Learn more about the Saskatoon Interchange Project at saskatoon.ca/interchanges.
