Attention: Persephone Theatre Owners

As a citizen of Saskatoon I am delighted that we have a theatre group in our city that provides high quality performances. Sadly though, I am greatly disappointed in the lack of planning and thought that was given toward accessibility of this new facility.

For anyone experiencing mobility issues navigation of the theatre is a nightmare. Stairs throughout the theatre clearly discriminates against anyone confined to a wheel chair. I am visually impaired which is challenging enough. With the assistance of my partner I am able to enjoy theatrical performances and I must say that the lighting and seating was adequate in this regard. I recently injured my ankle and was forced to use crutches. I contacted the box office to inquire where I could best be seated. They suggested a balcony seat where there would be less people to bump into me and I could easily maneuver in and out. Piece of cake!

The night of the performance we decided to go very early to avoid any issues. Thankfully we did so because parking near the facility is also of dire circumstance. After entering the centre and managing three steps, we were kindly shown the lift to the second floor. This is not an elevator, but a lift where one must hold down the button for the second floor the whole way up. No problem, we make it to the second floor lobby and I remember thinking "we made it and all will be clear sailing now". Heavens NO! Three more stairs barricades access to the balcony.

With difficulty I did manage to maneuver to my seat. By the time I did so I found myself irritated and downright angry. We are supposed to be a forward thinking community that adapts our environments to make them accessible to all. I would understand if this was an old building that was designed long before the days of accessibility, but this is a state of the art modern facility! Looking around at the patrons of Persephone theatre, the majority in attendance are older folk. While you don't have to be older to have mobility issues the likelihood is higher. When the experience becomes an increasing chore rather than an enjoyable outing, those supporting patrons will choose to stay at home!

On behalf of myself and anyone with mobility issues I ask that changes be made to the theatre so as to make an outing to the theatre the enjoyable experience it was meant to be.

Sincerely. Brende Kuffn Brenda Kuffner
