

## THIS PROGRAM WILL:

 Place a duty on the owner or owner's agent to call in at the specified stages of construction for an inspection;

 Enable the Building Inspector to schedule inspections when construction is ready to be inspected;

 Ensure buildings are open so an inspection can be made;

 Improve communication with the owner or owner's agent with written notices that will identify concerns of the inspector;

 Allow up to one month to complete all deficiencies after construction is completed (except unsafe conditions which shall be completed immediately).

## BUILDING INSPECTION MANDATORY CALL- IN PROGRAM

“Striving for Excellence, Our Commitment to  
Keeping Saskatoon Special”

## GENERAL REQUIREMENTS

**This program applies to all construction for which a building permit has been issued.**

All construction is required to be inspected by a City Building Inspector.

The owner or agent for the owner must call in for an inspection at the specified stages of construction before 4:00 p.m. for an inspection to be scheduled the next working day.

The owner or agent for the owner is responsible to correct all items of deficiency noted by the inspector

The Building Inspector may make additional inspections as necessary and may require the owner to call-in for a follow-up inspection.

Many projects falling under Mandatory Type 6 must also be inspected by a professional engineer or architect to ensure conformance with the design.

## MANDATORY CALL-IN STAGES

### **Type 1 - New and/or additions to one- or two- unit dwellings:**

- 1) Footing
- 2) Pre-Backfill  
(and at sub-floor for wood foundations)
