☐ I would like to include the cost of my home EnerGuide evaluations in my loan (optional). <i>Pre-project + post-project evaluation = total evaluation cost</i>				\$
☐ I will pay the upfront contractor deposit and would like to include the cost of a deposit in my loan (optional). <i>Once the project has been completed in full and all requirements of the Deferral Agreement have been met, homeowners who have paid upfront deposits to their contractors are eligible to be reimbursed directly by the City.</i>				\$
☐ I would like the City to directly pay my contractor the deposit up to the eligible upfront deposit amount. <i>Note: if the contractor requires a higher deposit amount it will be the homeowners responsibility to cover the amount not covered by the City. Homeowners who have paid an amount for the deposit to the contractor, are eligible to be reimbursed directly by the City once the project has been completed in full and all requirements of the Deferral Agreement have been met.</i>				\$
