

Environmental Programs for Saskatoon Classrooms

Presented by the City of Saskatoon and Partners

Student Action for a Sustainable Future (SASF)

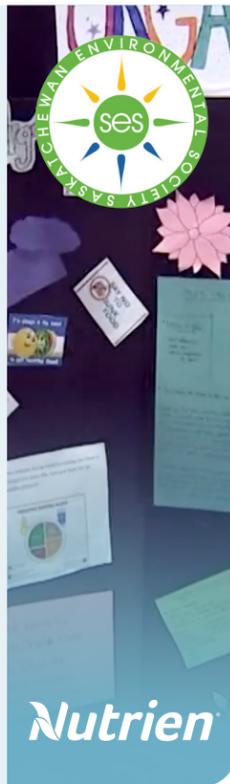

Climate action today means a more vibrant future for all! Empower your students to connect curriculum outcomes with sustainability goals through action-based projects that reduce greenhouse gas emissions in the class, in their community or at home.

In this program teachers will have the opportunity to collaborate with colleagues from other schools, learn from experts in the field and receive support through PD days and the team at the Saskatchewan Environmental Society. Inspire your students to make and meet new sustainability goals! Deadline for high schools is late September and elementary is early October.

Suitable for Grades 5-12

For more info, or to apply, please visit:

> environmentalsociety.ca/programs/k-12-school-programs/sasf/

EAL Recycling, Composting and Waste Reduction Workshops

The Newcomer Recycling and Composting Workshops are designed to educate newcomers and English as an Additional Language residents (EAL) on household recycling, composting and waste reduction.

Suitable for Grades 6 and up

Available for CLB 3-6 levels.

Call 306-931-3242 for more information.

✓ **Recycling:** deirdre@swrc.ca

✓ **Composting:** lisa@swrc.ca

Place-Based Lesson Opportunities

Saskatoon Light & Power

Is your class interested in how Saskatoon is building a smarter city? We offer tours of our Electrical Operations Centre, where students will learn what electricity is, how to be safe around it and how our system can be smart and sustainable.

Grades 6 & 9: Electrical Distribution and Alternative Energy

Relates to curriculum outcomes: EL6.1; CE9.3/4

Tours can be customized for students in Grade 4 and up.

For more information visit:

> saskatoon.ca/SLPSchoolTours

Yellow Fish Road™

The Yellow Fish Road™ program educates kids from Grades 5-8 on the impact of pollution in storm drains and how to protect our local water sources.

Students also look at the City's sewer system and learn what shouldn't go down the drain.

Suitable for Grades 5-8

Relates to curriculum outcomes WS8.2, IE7.4, MC5.3

To book an in-class presentation, please contact:

✉ jharder@meewasin.com

Loraas Education Center

Curious about what happens to your recyclables after you place them in the blue cart? Visit the Loraas Education Centre and find out!

Suitable for Grade 3 and up

Relates to curriculum outcomes ES3.2, DR3.3, HC4.1, DR4.2, MC5.3, RW5.1, RW6.2, IE7.4, RW7.2, RW8.2, RW8.3

For more information visit:

> loraas.ca/tours

Environmental Cash Grant

Put your good ideas to work! The City of Saskatoon offers cash grants to get locally focused environmental projects up and running. If you have a project in mind, your class can apply for funding support. Schools must provide a non-profit number for the application. Applications open end of November and close early February.

For examples of past projects and more info, visit:

> saskatoon.ca/envirogrant

Compost Workshops

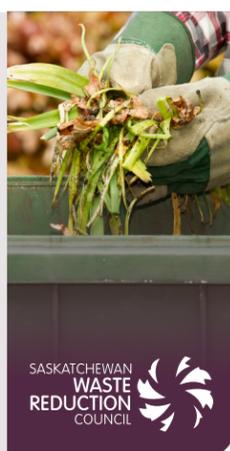

Curious about composting? Book a workshop and a Saskatchewan Waste Reduction Council (SWRC) representative will deliver a lesson to your class!

Deliver an engaging workshop tailored to the grade you teach!

To book a workshop:

✉ compost@swrc.ca

Subject: Compost Workshop

Cosmo's Recycling Centre

Learn about recycling and its positive impact on the lives of individuals with intellectual disabilities from our local waste experts at Cosmopolitan Industries!

Suitable for Grades 4 and up, and students with disabilities.
