Individual Lot Grade Drawings

Individual Lot Grade Drawings show the final design elevations at property corners and at other points that are deemed critical elevation points. An updated individual lot grade type for Lot 53 is attached reflecting the lot type is Type D, indicating a split drainage type. It is important that builders and homeowners match these grades with final landscape elevations. These elevations are required as a minimum for building plan approval.

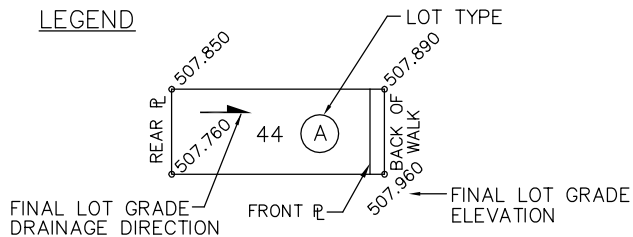

The attached drawing indicates the individual lot grades for lots located in the following:
