## CARBON MONOXIDE ALARMS SAVE LIVES

Carbon monoxide (CO) is an odourless, colourless, tasteless, deadly gas. Elevated levels of carbon monoxide can cause illness or death before people even know it is there.

A carbon monoxide alarm will alert you if dangerous levels of carbon monoxide are accumulating. Carbon monoxide alarms should be installed outside each sleeping area and are most effective when interconnected throughout your home.

If your carbon monoxide alarm sounds or you suspect carbon monoxide in your home, immediately move to a location with fresh air and call 9-1-1.

For more information, visit [saskatoon.ca/fire](http://saskatoon.ca/fire).

## SUBSIDIZED SPAY AND NEUTER PROGRAM

A single, unspayed female cat and her offspring can produce more than 400,000 cats in their lifetimes. Spay and neuter services help control the local pet population and keep pets feeling their happiest and healthiest.

The Subsidized Spay and Neuter Program is available to assist low income pet owners who could not otherwise afford veterinary services to have their pet spayed or neutered. For more information about the Subsidized Spay and Neuter Program, visit [saskatoon.ca/animalservices](http://saskatoon.ca/animalservices)
