

## 2009 Saskatoon Municipal Election Results

### Explanatory Note

#### **Turnout:**

Registered Voters:	Total number of individuals eligible to vote in Saskatoon.
Ballots Cast:	Number of ballot cards marked. As each voter may only vote once, this figure tells us how many people actually voted
Percentage:	Percentage of eligible voters who voted, derived by comparing the number of ballots marked with the number of registered voters.

#### **Mayor, Council and Public School Board Results:**

Registered Voters:	For City Council and School Board elections, this is the number of individuals eligible to vote in the Ward. In the case of the Mayoral race, this figure is the total of all eligible voters in Saskatoon.
Ballots Cast:	Number of ballot cards marked. This tells us how many people actually voted in that ward.
Voter Turnout	The percentage of ballots marked compared to eligible voters.
Total Votes:	This is the number of unspoiled ballots. Ballots may be spoiled if they are left blank, written on, if more than one candidate's name is marked, or if they are otherwise incorrectly filled out. Election results are tallied from these unspoiled ballots only.
Results:	These figures show the number of votes each candidate received (out of the total of votes counted) and the percentage of the vote that figure represents.

#### **Separate School Board Results:**

Total Votes:	The Separate School Board is elected under an "at large" system, where each elector may vote for up to seven individuals (the number of positions on the Board). Thus the total of votes counted toward the final result is significantly larger than the actual number of people voting.

<sup>1</sup> The figure given is larger than the number of ballots marked because under the “at large” system, used by the Separate School Board, each elector may vote for up to seven candidates (there are seven positions on the Board). Thus, the figure shows the total number of ballot spaces marked.
