

BEFORE YOU BUILD...

ANNOUNCEMENT

Building Standards will begin permitting
6 storey wood frame construction
in early 2016 when the 2015 National Building
Code of Canada (NBC) is formally printed.

Building permit applications for 6 storey wood
frame construction will be accepted in
Saskatoon through the Building Standards
Alternative Solution Process, supported by the
2015 NBC framework, in advance of anticipated
adoption by the Province of Saskatchewan in
mid-2017.

If you require further information on the topic, please contact
the commercial section of Building Standards at (306) 975-
7639. Alternatively, in the following weeks, you may refer to
the City of Saskatoon website at the following location to
receive updates.
