

Upgrades to Parc Canada

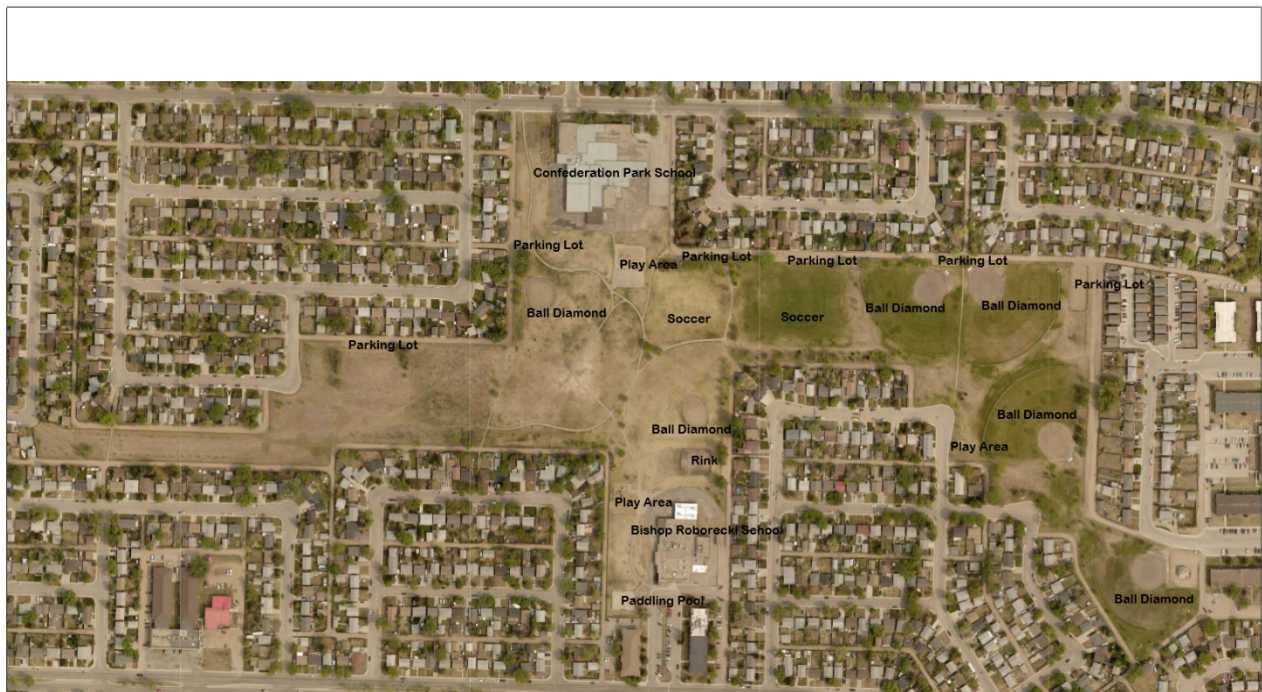

Work will begin shortly for a major upgrade in Parc Canada to the playground and pathways through the park.

This project will include the replacement of the existing play structure at Wâhkôhtowin Community School (formerly Confederation School), upgrades to existing pathways, addressing drainage concerns and upgrades to the irrigation system. This project will be completed in the fall of 2020. During this construction, access to pathways and areas of the park will be restricted.

For more information on the project, please visit saskatoon.ca/parkconstruction
