

COLLEGE CORRIDOR PLAN: ENGAGEMENT FEEDBACK ON PUBLIC REALM

COLLEGE CORRIDOR STUDY AREA

NEIGHBOURHOOD BOUNDARY

FUTURE BRT STOP

FUTURE BRT ROUTES

Callouts:

- keep and enhance open space by Little Stone School House (including the pond)
- keep and enhance open space by the Memorial Gates
- add or improve open space and gathering areas for hospital staff, patients, visitors
- enhance space south of President's Residence (formal pathways, public access)
- repair trail surface and widen to provide more space
- improve connection to Meewasin Trail
- add crossing
- keep existing green spaces, pathways and trees. Especially little/no change, other than for upkeep and safety improvements (President Murray Park, Meewasin Trail, Cosmopolitan Park, Riverbank)
- retain and improve green space around University Drive
- fill in missing sidewalks
- improve pedestrian and cyclist access with crosswalks & pathways (leading to hospitals, campus)
- create safe cycling & walking connections along Wiggins
- add new seating & gathering areas and landscaping
- improve crossing to accommodate high volume of pedestrians
- add new pathway or sidewalks between Cumberland and Preston
- add safer crossings across Preston Ave
- add trees for shade, shelter from elements, beautification
- add seating/gathering area (near BRT stop at Preston & 14th)
- add safer active transportation crossings and routes across the north portion of Preston Ave
- enhance existing pathway on west side of Preston
- reuse/adapt Stone Barn and possibly add new public open space around it
- create friendlier public space (between College/Preston and Field House)
- add sheltered seating, benches, tables – areas to rest or gather (along pathways leading to the Field House)
- improve pedestrian access to Patterson Garden and keep as a public amenity
- improve active transportation connections (to Field House)
