

# Exhibition LAP Vision Statement

*Exhibition is a quiet, relaxed, small, and historic community. Residents value the neighbourhood's mature urban forest and its desirable location which provides convenient access to Downtown, the Meewasin trails, and the riverbank.*

*We are Saskatoon's host, home to major events and festivals, with important facilities that draw people from far and wide.*

*City growth has had an impact on our neighbourhood, increasing concerns related to traffic, safety, and housing changes. It is important to preserve the character of our neighbourhood by ensuring our parks and mature vegetation are maintained, while new development is managed appropriately.*

*We want our schools to thrive, our parks to be gathering places where neighbours meet, and our community to be healthy and sustainable. Building community will help to maintain a high quality of life in the Exhibition area.*

*Exhibition strives to be a safe and fun neighbourhood where all ages and families can establish roots, get to know their neighbours, and enjoy various recreational activities. We will preserve the quiet and relaxing small town feel by balancing growth and renewal to ensure Exhibition remains a "hidden gem" in our growing city.*
