

# KEEP YOUR CAT SAFE & HEALTHY

Spayed | Microchipped | Supervised Outdoors

## WHY IT MATTERS:

Saskatoon Animal Control picks up **1,500+ confined cats** annually.

Only **7%** are returned to their owners.

**Over 90%** of cats returned had microchips linked to a valid pet license.

## HOW TO PROTECT YOUR CAT:

- ✓ Keep your cat on a **leash (max 2m)** or in a **catio**.
- ✓ **Spay or neuter** to prevent unwanted litters.
- ✓ **Microchip & license** your cat for safe return.

**CATS CAUGHT ROAMING FACE FINES STARTING AT \$100.**

Let's reduce the number of community cats in Saskatoon.
