Purpose

In 2023, the City of Saskatoon completed another wave of its Civic Services Survey: Performance, Priorities and Preferences to continue gaining insights on residents' experience and impressions related to the quality of transportation and utilities services, community and public services, waste management services, recreation and culture services, the priorities of services rated, and preferences on the level of civic services provided (more, less, or about the same).

The results of the Performance, Priorities and Preferences survey are intended to help inform decisions related to initiatives and actions for strategic priorities, budget decisions, and service delivery decisions.

Additionally, the survey will help identify key trends and issues of importance to aid the City's continuing goal of service excellence.

The primary objectives of the survey were to gauge the following:

- Perceptions of quality of services provided by the City
 - Transportation & Utilities Services
 - Community & Public Services
 - Waste Management Services
 - Recreation & Culture Services
- Priorities of services
- Preferences on level of civic services for 12 categories

Executive Summary

In 2018, the City of Saskatoon reviewed the 2017 Civic Services Survey and developed a more comprehensive process to collect input from residents. The review process resulted in the creation of two separate surveys: a Civic Satisfaction & Performance survey, and a Civic Services Survey: Performance, Priorities & Preferences. These two surveys were fielded again in 2021 and 2023, and this report discusses the findings from the Civic Services survey.

The Civic Services survey was first implemented in November 2018. In 2018, there were small changes from the previous years to improve the data, ask new questions, and be more inclusive by offering a link on the City of Saskatoon's website for the general public to participate. In the 2021 wave, minimal changes were made to ensure the data can be trended. There were no major changes to the survey other than including a question on the impact of COVID-19, removing the community engagement questions, and asking the service priorities section to all instead of those with average or below average service satisfaction. In the current 2023 wave, there were no major changes to the survey other than the removal of the COVID-19 pandemic question, however it is worth noting that while the 2021 wave involved a random digit dial telephone and online panel survey, the 2023 survey was exclusively conducted via online panel for data collection. As a result, the report will present a comparison between the online panel results from 2021 and 2023, where applicable.

This wave, 848 surveys were conducted with residents of Saskatoon who were 18 years of age and older. The results of the respondents are highlighted in the following pages and provide insights on the City of Saskatoon's services and priorities.

Executive Summary

City Services

Transportation & Utilities

The top services that respondents are most satisfied with are:

1. Reliability of electrical services – 8.7 (*only asked to those who use Saskatoon Light and Power)
2. Quality of drinking water – 8.3
3. Speed of water main breaks repairs – 7.6

The top three services remained consistent with the 2021 results, and nearly all services showed an improved satisfaction ranking compared to the previous year. The reliability of electrical services* witnessed the most substantial increase from 2021 (+0.7), followed by improved accessibility of infrastructure for people with disabilities (+0.5), and the maintenance of back lanes (+0.4). However, there were two service categories that experienced a decrease: maintenance of major roadways and freeways in the city (-0.2) and snow and ice road maintenance (-0.1).

Community and Public Services

The top services that respondents are most satisfied with are:

1. Fire protection – 8.1
2. Maintenance of city parks – 7.7
3. Police services – 7.6

Nearly all community and public services saw an increase from 2021. Bylaw enforcement (+0.4), fire protection (+0.4), and police services (+0.4) experienced the greatest increase. However, there were two categories that experienced a decrease: mosquito control (-0.3) and planning for development and growth (-0.1).

Executive Summary

City Services

Waste Management

Satisfaction for all waste management services saw an increase compared to 2021 (+0.3). Garbage collection, recycling collection, and landfill services each saw an increase of 0.3 percentage points from 2021. The 2023 rating of waste management services has reached the highest levels of satisfaction since these survey questions were first asked in 2015.

Recreation & Culture

Respondents had similarly high satisfaction levels for all recreation and culture services:

1. Indoor leisure centres – 7.9
2. Outdoor sports fields – 7.9
3. Recreation programs and services – 7.9
4. Indoor ice rinks – 7.9
5. Paddling pools and spray parks – 7.8
6. Outdoor swimming pools – 7.6

Indoor ice rinks experienced the greatest increase in rating (+0.6), followed by paddling pools and spray parks (+0.3), indoor leisure centres (+0.3), and recreation programs and services (+0.3).

Executive Summary

City Services

More than half of residents indicated they would like the City to provide **more** service for:

- Affordable Housing (60%)
- Road Maintenance (58%)
- Snow & Ice Management (55%)

The top services that residents indicated they would like the City to provide **less** service for are:

- Community Grants (19%)
- Planning and growth (17%)
- Recreation and Cultural Programs (16%)

Respondents indicated they would like the service to stay the same for park maintenance (58%), garbage collection and waste reduction programs and services (57%), fire services (57%), recreation and cultural programs (51%), and traffic management (50%).

Spending Priorities

The satisfaction and priorities questions were used to determine key weaknesses (high priority, low satisfaction), and key strengths (high priority, high satisfaction), highlighted below:

Key Strengths:

- Quality of drinking water
- Fire protection
- Reliability of electrical services
- Speed of water main breaks repairs
- Garbage collection
- Police services
- Maintenance of city parks

Key Weaknesses:

- Snow and ice road maintenance
- Maintenance of major roadways and freeways
- Accessibility of infrastructure for people with disabilities
- Traffic management
- Planning for growth and development

Methodology

Research was conducted using computer assisted web interviewing (CAWI) methodologies amongst randomly-selected residents of Saskatoon in a panel database.

Online Sampling

For this online study, panelists were selected at random from the panel to complete surveys online, ensuring the accuracy of online research results. Panel members who are residents of Saskatoon were provided with a link to access the survey online.

2023 Changes to the Survey

In 2023, the impact of COVID-19 pandemic questions were removed. The decision was due to the lockdowns and restrictions associated with the pandemic being lifted. Additionally, data collection was done exclusively via online panel.

Comparisons to Previous Results

While previous waves of research involved a random digit dial telephone, online panel, and an open-link self-selected survey, the 2023 survey was exclusively conducted via online panel for data collection. As a result, the report will present comparisons only between online panel methodology results between 2023 and earlier years, if applicable.

Fieldwork dates	June 7 th – June 28 th , 2023
Method	Computer Assisted Web Interviewing (CAWI)
Criteria for Participation	Residents within the City of Saskatoon who are 18 years of age and older
Sample Size	848
Average Length	13 minutes
Margin of Error	± 3.36%, 19 times out of 20

Interpreting this Report

Demographic Table Breakout

85%	Denotes the percentage which is significantly higher than the segment with the corresponding letter. Each segment is denoted with letters (e.g., A, B, C, etc.). If the letter “A” appears under the response of a certain segment, this indicates that the response of that segment is significantly higher than the response of the segment denoted with the letter “A”.
B	

Please note that statistical differences have been indicated where they exist.

Detailed Findings

Transportation & Utilities (Means)

Q1-12. Please rate how well the City of Saskatoon is doing in the transportation and utilities services:

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: *'Reliability of electrical services' only asked to those who use Saskatoon Light and Power. All other options were asked to all respondents.

City residents were asked to rate services provided by the City on a 10-point scale, where 1 is very dissatisfied and 10 is very satisfied. The reliability of electrical services, quality of drinking water, and speed of water main breaks repairs remain the top services where residents are the most satisfied, consistent with 2021 results.

Detailed Findings

Transportation & Utilities (Means)

	2015	2016	2017	2018	2021	2023	Average	Difference from 2021
Reliability of electrical services*	7.8	7.9	8.0	8.9	8.0	8.7	8.2	+0.7
Quality of drinking water	8.3	8.1	8.3	8.6	8.1	8.3	8.3	+0.2
Speed of water main breaks repairs	6.7	6.7	7.0	7.4	7.4	7.6	7.1	+0.2
Accessibility of infrastructure for people with disabilities	-	6.4	6.3	6.8	6.8	7.3	6.7	+0.5
Traffic management	4.9	5.3	5.5	6.5	7.0	7.1	6.1	+0.1
Public transit	5.1	5.2	5.4	6.3	7.0	7.1	6.0	+0.1
Parking services	4.9	4.9	5.4	6.1	6.8	6.9	5.8	+0.1
Sidewalk maintenance in your neighbourhood	5.5	5.6	5.9	5.9	6.6	6.8	6.1	+0.2
Street maintenance in your neighbourhood	4.9	5.2	5.7	5.9	6.5	6.8	5.8	+0.3
Maintenance of back lanes	4.7	5.0	5.3	5.7	6.4	6.8	5.7	+0.4
Snow & ice road maintenance	5.2	5.5	5.8	6.0	6.8	6.7	6.0	-0.1
Maintenance of major roadways and freeways in the city	4.8	5.3	5.8	6.1	6.7	6.5	5.9	-0.2

Nearly all services received a higher satisfaction score, continuing the growth seen in 2021. The reliability of electrical services* experienced the greatest increase from 2021 (+0.7), followed by accessibility of infrastructure for people with disabilities (+0.5), and the maintenance of back lanes (+0.4). The City of Saskatoon saw a decrease in two categories; the maintenance of major roadways and free ways in the city (-0.2) and the snow and ice road maintenance (-0.1).

***Please note this options was only asked to respondents who are Saskatoon Light and Power customers.*

Q1-12. Please rate how well the City of Saskatoon is doing in the transportation and utilities services:

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: *'Reliability of electrical services' only asked to those who use Saskatoon Light and Power. All other options were asked to all respondents.

Detailed Findings

Community & Public Services (Means)

Q13-20. The following are a list of community and public services that the City of Saskatoon provides its residents. Please rate how well the City of Saskatoon is doing in these services on a scale from 1 through 10, where 1 represents poor, and 10 represents excellent.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

Overall, City residents are most satisfied with fire protection, maintenance of city parks, and police services, while mosquito control was the lowest ranked community and public service. Mosquito control was also the lowest ranked in 2021.

Detailed Findings

Community & Public Services (Means)

	2015	2016	2017	2018	2021	2023	Average	Difference from 2021
Fire protection	7.9	7.9	8.0	8.4	7.7	8.1	8.0	+0.4
Maintenance of city parks	-	-	-	7.7	7.4	7.7	7.6	+0.3
Police services	7.0	6.6	6.7	7.6	7.2	7.6	7.1	+0.4
Maintenance of city trees	-	-	-	7.4	7.2	7.4	7.3	+0.2
Control of dangerous and nuisance animals	7.0	6.7	6.8	7.1	7.1	7.3	7.0	+0.2
Bylaw enforcement	5.8	6.0	6.0	6.3	6.7	7.1	6.3	+0.4
Planning for growth and development	5.2	5.9	5.7	6.1	6.8	6.7	6.1	-0.1
Mosquito control	5.8	5.8	5.7	6.4	6.5	6.2	6.1	-0.3

Satisfaction with most community and public services saw an increase in 2023 from 2021. By law enforcement (+0.4) saw the greatest improvement, along with fire protection (+0.4) and police services (+0.4). The two services that saw a decrease were mosquito control services (-0.3) and planning for growth and development (-0.1).

Q21-23. The following are a list of waste management services that the City of Saskatoon provides its residents. Please rate how well the City of Saskatoon is doing in these services on a scale from 1 through 10, where 1 represents poor, and 10 represents excellent.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

Detailed Findings

Recreation and Culture (Means)

Q24-29. The following is a list of recreation and culture services that the City of Saskatoon provides its residents. Please rate how well the City of Saskatoon is doing in these services on a scale from 1 through 10, where 1 represents poor, and 10 represents excellent.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

	2015	2016	2017	2018	2021	2023	Average	Difference from 2021
Indoor leisure centres	7.2	7.2	7.3	8.0	7.6	7.9	7.5	+0.3
Outdoor sports fields	-	-	-	7.9	7.7	7.9	7.8	+0.2
Recreation programs and services	7.0	6.8	6.9	7.7	7.6	7.9	7.3	+0.3
Indoor ice rinks	6.9	6.5	6.6	7.5	7.3	7.9	7.1	+0.6
Paddling pools and spray parks	7.1	7.1	7.2	7.7	7.5	7.8	7.4	+0.3
Outdoor swimming pools	6.9	6.8	7.1	7.5	7.4	7.6	7.2	+0.2

Overall, satisfaction levels are high for all recreation and culture services. While all categories experienced an increase, indoor ice rinks experienced the greatest difference from 2021 (+0.6).

Legend:

8.0

Letter denotes significantly higher score than the segment with the corresponding letter

C

Q24-29. The following is a list of recreation and culture services that the City of Saskatoon provides its residents. Please rate how well the City of Saskatoon is doing in these services on a scale from 1 through 10, where 1 represents poor, and 10 represents excellent.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

Detailed Findings

Preferences on Level of Civic Services – More Service

Q32-43. For each category, please indicate if you would like the City to provide more service, less service or about the same. Please keep in mind that taxes or user fees may increase if the City were to provide more service in one or more categories.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

The services most commonly indicated for a preference for more service were:

- Affordable Housing (60%; -1 percentage point from 2021)
- Road Maintenance (58%; +2 percentage point from 2021)
- Snow & Ice Management (55%; +4 percentage point from 2021)
- Police (44%; +10 percentage point from 2021)
- Transit (43%; +4 percentage point from 2021)

Detailed Findings

Preferences on Level of Civic Services – Less Service

Q32-43. For each category, please indicate if you would like the City to provide more service, less service or about the same. Please keep in mind that taxes or user fees may increase if the City were to provide more service in one or more categories.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

The services most commonly indicated for a preference of less service were:

- Community Grants (19%; +6 percentage points from 2021)
- Planning & Growth (17%; +7 percentage points from 2021)
- Recreation & Cultural Programs (16%; +3 percentage points from 2021)
- Transit (13%; +4 percentage points from 2021)
- Affordable housing (13%; +3 percentage points from 2021)
- Park maintenance (13%; +5 percentage points from 2021)

Detailed Findings

Preferences on Level of Civic Services

	More	Same	Less
Road Maintenance (N=813)	58%	30%	11%
Snow & Ice Management (N=807)	55%	35%	10%
Traffic Management (N=807)	40%	50%	10%
Police (N=801)	44%	44%	12%
Fire (N=795)	35%	57%	8%
Transit (N=770)	43%	44%	13%
Planning & Growth (N=784)	41%	41%	17%
Community Grants (N=752)	39%	42%	19%
Affordable Housing (N=787)	60%	27%	13%
Garbage Collection & Waste Reduction Programs and Services (N=807)	32%	57%	11%
Parks Maintenance (N=793)	30%	58%	13%
Recreation & Cultural Programs (N=775)	33%	51%	16%

Q32-43. For each category, please indicate if you would like the City to provide more service, less service or about the same. Please keep in mind that taxes or user fees may increase if the City were to provide more service in one or more categories.

Sample size: varies; shown on chart; excluding 'Don't know' responses.

Sample framework: All respondents.

Nearly half of the services offered were favoured to remain unchanged, including parks maintenance (58%), garbage and waste reduction programs and services (57%), fire services (57%), recreation and cultural programs (51%), and traffic management (50%). Conversely, respondents expressed a desire for increased services in specific areas, such as affordable housing (60%), road maintenance (58%), and snow and ice management (55%). Community grants (19%), planning and growth (17%), and recreation and cultural programs (16%) stood out as the services with the highest proportion of respondents indicating a preference for reduced levels of service.

Mapping of Priorities & Satisfaction

A quadrant analysis was conducted to determine services that are considered key strengths and key weaknesses based on 2023 data. The satisfaction and priorities were used to determine key weaknesses (high priority, low satisfaction), and key strengths (high priority, high satisfaction). Satisfaction scores are plotted horizontally (along the X-axis) and they represent the mean satisfaction scores of each service (out of 10). The priority scores are plotted vertically (along the Y-axis) and they represent the mean priority scores of each service (out of 10). Thresholds are established by finding the average satisfaction and priority score. Note that since the satisfaction and priority scores change for each survey based on responses, the threshold used to create the four quadrants are also subject to change.

Key Weaknesses: Services where respondents had low satisfaction scores and high priority scores. These services are considered opportunities to improve overall satisfaction.

Key Strengths: Services where respondents had high satisfaction scores and high priority scores. These services should be monitored to support continued high levels of satisfaction.

Below is a summary of the key weaknesses and strengths from the 2023 results. The following slides include the quadrant analysis.

Key Weaknesses		Key Strengths	
2023	2021	2023	2021
Snow & ice road maintenance	Snow & ice road maintenance	Quality of drinking water	Quality of drinking water
Maintenance of major roadways and freeways	Maintenance of major roadways and freeways	Fire protection	Fire protection
Traffic Management	Traffic Management	Reliability of electrical services*	Reliability of electrical services*
Planning for growth and development	Planning for growth and development	Speed of water main breaks repairs	Speed of water main breaks repairs
Accessibility of infrastructure for people with disabilities	Accessibility of infrastructure for people with disabilities	Garbage collection	Garbage collection
-	-	Police services	Recycling collection
-	-	Maintenance of city parks	Maintenance of city parks

*'Reliability of electrical services' only asked to those who use Saskatoon Light and Power. All other options were asked to all respondents.
