

A LETTER

TO THE FUTURE...

Dear 2050: _____
[name of a person or place you'd like to dedicate this letter to]

Today, I said “count me in” to taking action on climate change.

This means I commit to:

[Include how you plan to support action on climate change between now and 2050]

I am doing this because:

[Provide a description of why you think/feel it's important to act on climate change]

Climate change is already impacting:

[Provide an example of how a changing climate is impacting a place that you love, a person/people you care about, or an activity that you enjoy]

I hope that:

[Describe your vision of Saskatoon and/or the world in 2050 – what do you hope we can achieve by taking action on climate change?]

I'm inspired by:

[Write about who/what inspires you to act on climate change, and why]

Finally, I want you to know:

[Summarize any final thoughts, ideas, hopes, questions, concerns...]

Sincerely,

2018 _____
