01045-1 Products**1.1 General**

All products, equipment and articles incorporated in the work shall be new, not damaged or defective and of best grade (compatible with specifications) for the purpose intended.

If requested, furnish evidence as to source and quality of products provided.

1.2 Product Quality

Should any dispute arise as to the quality or fitness of equipment, materials or products, the decision shall rest with the Engineer, and shall be based upon the requirements of this Contract.

1.3 Availability of Products

Immediately on signing the Contract, review the project requirements, anticipate foreseeable supply delays in any items and so notify the Engineer, in order that substitution or other remedial action may be authorized in ample time to prevent work delay. Should the Contractor fail to notify the Engineer at commencement of the work and should it subsequently appear that the work may be delayed for the above reasons, the Engineer reserves the right to substitute more readily available materials or equipment of similar character, at no increase in Contract price.

01045-2 Workmanship**2.1 General**

Workmanship shall be of the best quality, executed by workmen experienced and skilled in their respective trades. If work is specified in such manner as to make it impracticable to produce required results, notify the Engineer for further directions.

At all times, enforce discipline and good order among workers. Do not employ any unfit person or anyone unskilled in the duties assigned to him. The Engineer reserves the right to require the removal, from the site, of workers deemed incompetent, careless, insubordinate or otherwise objectionable.

2.2 Coordination

Ensure full cooperation and coordination among all trades and provide efficient and continuous supervision.

Make certain that the work of various subcontractors does not conflict or create interference, thus assuring completion of the project in a satisfactory manner.

2.3 Measurement and Payment

There will be no separate payment for work outlined in this section.
