

# Victoria Avenue Bikeway

8TH STREET TO TAYLOR STREET

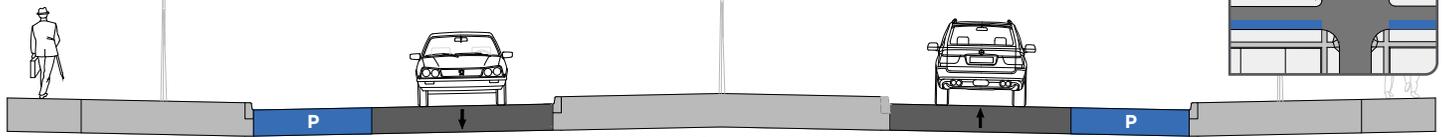

Saskatoon's Active Transportation Plan (2016) identified Victoria Avenue as a future all ages and abilities (AAA) cycling route.

Based on existing traffic volumes on Victoria Avenue between 8th Street and Taylor Street, a cycling facility separated from vehicular traffic is required to be comfortable for cyclists of all ages and abilities.

Five options have been developed for Victoria Avenue. All options are AAA cycling facilities.

\$ = Approximately \$1 Million
