

# SOUND LEVEL MONITORING LOG

Event Name: \_\_\_\_\_

Event Date: \_\_\_\_\_

Event Location: \_\_\_\_\_

Event Organizer: \_\_\_\_\_

Sound Technician/Monitor: \_\_\_\_\_

Approved Sound Limit (dB): \_\_\_\_\_

Measurement Device Used: \_\_\_\_\_

Time	Monitoring Location	dB Reading (Average)	dB Reading (Peak)	Weather Conditions	Corrective Action Required? (Y/N)	Notes

## Instructions

1. Sound level readings must be taken at a minimum of every 30 minutes during all periods of amplified sound.
2. Readings should be taken 100 feet from speakers.
3. If sound levels exceed approved limits or generate complaints, immediate corrective action must be taken (e.g., reduce volume, reduce bass frequencies, reorient speakers, pause amplified sound).
4. Record any corrective actions taken in the Notes section.
5. Submit the completed Sound Level Monitoring Log to the City of Saskatoon within five (5) business days following the event.

### Organizer Certification

I certify that the above information is accurate and that sound monitoring was conducted in accordance with City of Saskatoon Amplified Sound Guidelines.
